

Accessing Academic Lab Software Remotely

CNC 24 Hour Lab

Remote access to most of the software available in E&T academic labs is available via the CNC24hour server managed by CNC.

- How to access the CNC24hour server – <https://et.iupui.edu/students/computing/resources/>
- List of software available - <https://et.iupui.edu/students/computing/students/>

IUanyWare

IUanyWare is a client virtualization service available to Indiana University students, faculty, and staff. With IUanyWare, you can use a web browser or mobile app to run certain IU-licensed software applications without having to install them on your computer or mobile device.

- About IUanyWare - <https://kb.iu.edu/d/bbbr>

MATLAB

MATLAB is available via a campus-wide license for students and faculty. The license includes every MATLAB product available plus their Academic Online Training Suite.

- New users can download, install, and activate MATLAB from [MathWorks](#). See IU KB doc About MATLAB at IU <https://kb.iu.edu/d/abwi> for information.
- Access to the Academic Online Training Suite - <http://matlabacademy.mathworks.com>
- Please contact CNC to install MATLAB on your university system.

Autodesk

Free download of Autodesk products for academic use on personal systems.

- Link to access free Autodesk software <https://www.autodesk.com/education/free-software/featured>
- Please contact CNC to install Autodesk on your university system.

Microsoft Development Software

Microsoft development software is available to faculty and students to download for academic use via the 'Azure Dev Tools for Teaching Hub'. Software available includes **Microsoft Visual Studio and Projects**.

1. Go to <https://azureforeducation.microsoft.com/devtools>, click the blue Sign In button
2. At the Sign In prompt, enter your IU username followed by @iu.edu ([username@iu.edu](#)). Do this no matter what your email address is. Select Next.
3. At Enter Password prompt, enter your IU passphrase. Select Sign In
4. Complete Duo two factor authentication
5. For first time sign in, check and accept terms; select 'Continue to Azure Portal website'
6. Select 'Software' in left column menu to view list of available software

Note: If you are having problems signing in:

- clear the cache, cookies and browsing history
- use Internet Explorer or Microsoft Edge and enable the In-private browsing by pressing CTRL + Shift + P on the keyboard or, for Chrome CTRL + Shift + N
