

The Construction Management Program at IUPUI is looking for one or more adjunct professors to teach classes in Surveying as well as Electrical & Mechanical Systems for Construction Managers. This is a great opportunity to impact the lives of future construction managers. A Masters degree in any field related to construction management, including an MBA, is preferred, along with at least five years of relevant experience. Courses are currently planned as face-to-face (with space restrictions) in Fall 2021.

Interested parties should contact Dr. Dan Koo dankoo@iupui.edu for additional information.

As the state's premier urban research institution, IUPUI is committed to being a welcoming campus community that reflects and enacts the values of diversity, equity and inclusion that inform academic excellence. We seek candidates who will not only enhance our representational diversity but whose research, teaching, and community engagement efforts contribute to diverse, equitable, and inclusive learning and working environments for our students, staff, and faculty. IUPUI condemns racism in all its forms and has taken an anti-racist stance that moves beyond mere statements to interrogating its policies, procedures, and practices. We hope to identify individuals who will assist in our mission to dismantle racism so that everyone has the opportunity to succeed at IUPUI.
