

The Mechanical Engineering Technology (MET) program in the School of Engineering & Technology at IUPUI is searching for adjunct faculty to deliver courses in the (MET) program beginning Fall 2021. A Master's degree in Mechanical Engineering, Mechanical Engineering Technology, or equivalent is preferred, along with at least four years of relevant experience. Desired areas of expertise include Fluid Power and Controls, AutoCad, SolidWorks, and Thermodynamics.

Applications should include a statement of interest and curriculum vitae. Permanent Residency or U.S. Citizenship status is required. Interested parties should contact Dr. Paul Yearling pyearlin@iupui.edu for additional information.

As the state's premier urban research institution, IUPUI is committed to being a welcoming campus community that reflects and enacts the values of diversity, equity and inclusion that inform academic excellence. We seek candidates who will not only enhance our representational diversity but whose research, teaching, and community engagement efforts contribute to diverse, equitable, and inclusive learning and working environments for our students, staff, and faculty. IUPUI condemns racism in all its forms and has taken an anti-racist stance that moves beyond mere statements to interrogating its policies, procedures, and practices. We hope to identify individuals who will assist in our mission to dismantle racism so that everyone has the opportunity to succeed at IUPUI.

Information about the Department of Engineering Technology can be found at: <http://www.engr.iupui.edu/departments/ent/>.

IUPUI is an Equal Opportunity/Affirmative Action educator and employer and affords reasonable accommodations to persons with disabilities.
