MET Position – Lecturer of Mechanical Engineering Technology

The Mechanical Engineering Technology program in the Department of Engineering Technology within the Purdue School of Engineering and Technology at IUPUI is seeking applications for a lecturer position, beginning August 1, 2023. Duties include teaching courses in applied engineering including manufacturing processes, fluid power, CAD, mechanics, materials testing, and dynamics, as well as collaboration with faculty and staff for program improvement.

Candidates should have at least 3 years of professional experience and hold at a minimum an M.S. in Engineering Technology, Mechanical Engineering, or in a closely related field. Permanent Residency or U.S. Citizenship status is required. Applications should include a statement of interest, curriculum vitae, and contact information for at least three references. IUPUI is a growing urban campus with approximately 30,000 students and 200 degree programs. Information about the Department of Engineering Technology can be found at: http://www.engr.iupui.edu/departments/ent/

As the state’s premier urban research institution, IUPUI is committed to being a welcoming campus community that reflects and enacts the values of diversity, equity and inclusion that inform academic excellence. We seek candidates who will not only enhance our representational diversity but whose research, teaching, and community engagement efforts contribute to diverse, equitable, and inclusive learning and working environments for our students, staff, and faculty. IUPUI condemns racism in all its forms and has taken an anti-racist stance that moves beyond mere statements to interrogating its policies, procedures, and practices. We hope to identify individuals who will assist in our mission to dismantle racism so that everyone has the opportunity to succeed at IUPUI.

IUPUI is an Equal Opportunity/Affirmative Action educator and employer and affords reasonable accommodations to persons with disabilities.

Candidates should have at least 3 years of professional experience and hold at a minimum an M.S. in Engineering Technology, Mechanical Engineering, or in a closely related field. Permanent Residency or U.S. Citizenship status is required.
